Gifts of Stocks or Appreciated Assets

Donating stocks, bonds, or mutual funds that have appreciated in value is a savvy way to contribute. Not only does it allow you to support our cause, but it also offers you financial benefits. By directly transferring your appreciated assets, you may avoid paying capital gains tax on the increase in value since purchase, and you could be eligible to take a charitable tax deduction for the full market value at the time of the gift. This method can significantly increase the size of your contribution and your tax benefit without affecting your cash flow.

Qualified Charitable Distributions

If you are 70½ years old or older, a Qualified Charitable Distribution (QCD) is an excellent way to make a tax-wise contribution. A QCD allows you to donate up to \$100,000 directly from your IRA to a qualified charity like MN SNAP, without having to count the distribution as taxable income. This can be particularly advantageous if you are required to take minimum distributions, as the QCD can count towards satisfying this requirement while potentially reducing your taxable income.

Grants from Donor-Advised Funds

Donor-Advised Funds (DAFs) are an increasingly popular philanthropic vehicle, allowing you to make a charitable contribution, receive an immediate tax deduction, and then recommend grants from the fund over time. If you have a DAF, you can direct a grant to MN SNAP, thus simplifying your charitable giving and record-keeping. DAFs provide the flexibility to support the causes you care about while being strategic about the timing of your tax deductions.
